Blow Off Valve Set for BMW Twin Turbo (335i/135i)

- Part Number:** CAPT023
Application: BMW Twin Turbo (335i/135i)
- Package Included:**
- 2 pcs Silicone BOV Hose + clamps set
 - 2 pcs Custom Made Blow Off Valve Unit
 - 4 Set Spring with different rate , see below
- Specification:**
- Spring Rate:
- Red: 12.6 – 31.4 lbf
- Blue: 7.1 – 17.7 lbf
- Green: 6.7 – 16.7 lbf
- Yellow: 5.7 – 14.3 lbf
 - 4 Spring Rate Interchangeable
 - Allow Higher Release Pressure for BOV, therefore faster reaction of Turbo Charge.
 - Silicone BOV Hose is more Durable
 - 100% Bolt on

Product Highlight - Adjustable Suspension System

- | | | |
|-----------------------------------|-------------------------------------------|---------------------|
| 24-level Damping Force Adjustment | Full-Length Ride Height Adjustment System | Mono-Tube Structure |
| Vertical Tube Structure | Cold Forming Spring | Overhaul Allow |

Emotion Suspension System Kit was designed for drivers seeking improved handling on the street and at the track. It allows for a better ride at lowered ride heights, and increased grip at the track. All our suspension is produced by the latest technology and you would satisfy its performance.

Recently, we have 2 more new suspensions for Euro Cars - **BMW 3 Series E46** and **Alfa Romeo 156**. You would find that the performance is greater than the standard one when you are doing comparison. If you would like to find one for your car or have questions about our suspension kit, pls. [E-mail](#) us.

- Application List:** [Pls. click here for the application list](#)
- Specification:**
- Length: 62cm x Width: 45cm x Height: 19cm
 - 24 Levels of damping Adjustable
 - 44mm Linear Characteristic Internal Needle Valve Piston
 - JIS G3445-STKM13C (DIN2393-ST44-2) Carbon Seamless Steel 52mm Tube
 - Lower Bracket Height Adjustable, prevent adjust the spring perch offering the maximum shock-absorbing travel
