This week we introduce a new product - **VI Monitor.** It allows you to **monitor engine** and **data functions** normally reserved for garages with expensive diagnostics equipment, and it will also check your vehicle's fault codes and reset them if you wish.

This VI Monitor is from **UK** and Autobahn88 is the **sole distributor in Asia.**

For more details, please visit <u>Vi-Performance</u> or <u>E-mail</u> us

Vi Monitor

Performance Tests for Both Acceleration and Braking

Self-damping 3 Axis G-Sensor
